When *The Harbinger* was first released in early 2012, I never could have imagined how the Lord would use it to reach millions of people across the globe. From New York to Nigeria, from pastors to politicians, the message God birthed in that book took on a life of its own. And yet I've always known that there would come a moment—an appointed time—when the message would need to be reborn in a new way for a new generation.

That time is now.

On June 3, we launched *The Harbinger Graphic Novel*—and this is no ordinary book. It is the original prophetic message of *The Harbinger*, transformed into a vivid, powerful, living, breathing experience. And it just might be the most explosive tool yet to reach those who need this message the most—the next generation.

We're living in a time when attention spans are short and digital noise is constant. Gen Z and Gen Alpha have grown up on screens, scrolling through images faster than we could ever

imagine. But what if that tendency—what the world calls distraction—could actually be a divine doorway? That's exactly what I believe the Lord is doing with *The Harbinger Graphic Novel*. Through every page, every panel, every carefully illustrated shadow and light, God is speaking again. The message of warning, of mystery, of America's prophetic pattern—it's all there, and now it's visual. Now, it's alive.

You see, there are things I could not show in the original book. I could describe them, explain them, even quote them—but I couldn't *show* them. But now, through this graphic novel, you will see with your own eyes the twin towers of ancient Israel and modern-day America side by side. You'll see the ancient utterance of judgment proclaimed by Israel's leaders—and then watch as it is unknowingly proclaimed again by a U.S. Senate Majority Leader on Capitol Hill the day after 9/11. This is the prophetic made visible.

That's why I believe this graphic novel is not just a creative retelling—it's a prophetic tool. It's designed to reach your children, your coworkers, your friends, your family members—the ones who don't yet know the Lord, the ones who wouldn't crack open a hardcover book, but who desperately need the truth.

The full message of *The Harbinger* is here. The sycamore, the tower, the gazit stone, the mystery of the Shemitah, the prophetic dream of George Washington—it's all in this book. And it leads not just to revelation, but to salvation. Because the final pages contain what may be the most important part of all: a clear and powerful call to receive Yeshua—the only One who can save, redeem and restore.

As with all things from God, this isn't just about creativity—it's about the Holy Spirit. When we walk with Him, when we yield to His leading, He doesn't just give us content—He gives us timing. And I believe the release of this graphic novel is not an accident. It is appointed.

We are watching America walk down a path that mirrors the judgment pattern of ancient Israel. The harbingers are continuing. The warnings have not ceased. If anything, they've intensified. But as always, God's heart is to call His people to repentance, to return, and to revival.

If ever there was a generation that needs to hear this call—it is this one. Gen Z and Gen Alpha are facing confusion on every front: identity, truth, purpose, destiny. But I believe God is calling them to rise up, to awaken, to become a generation of fire, filled with His Spirit and grounded in His Word. But they must first be reached. And that's where this graphic novel comes in.

From the opening page, where we meet the prophet, Noriel, and Anna, to the climactic call to salvation, this book carries a weight. Not just of ink and paper—but of divine urgency. It is a visual trumpet blast, warning of what is and what is to come.

There's a reason I had to keep my one copy hidden in my house—everyone wanted it. I believe that's just a glimpse of what's coming.

Beloved, we are living in prophetic times. The signs are clear. The warnings are real. The call is urgent. And yet, God is not silent. He is still speaking—through His Word, through His Spirit and yes, through a graphic novel.

I never imagined I'd write something like this. But I've seen firsthand the power of obedience—and I believe this book will go places the original never could. It will open eyes, soften hearts, and draw souls to salvation.

So I ask you: Who in your life needs to hear the message of *The Harbinger*? Who needs to see it with their own eyes? Who needs a holy interruption in their daily scrolling?

Put it in their hands. And then—watch what God does.
