

Divanomics

 Michelle McKinney Hammond | Tyndale House Publishers

In *Divanomics: How to Still Be Fabulous When You're Broke*, speaker and TV host Michelle McKinney Hammond is candid about her financial downfall and the redemption she found through faith and guidance.

After writing more than 30 books, crossing the country for speaking engagements, co-hosting a TV show and living an extravagant lifestyle, she lost almost everything, proving that the recession plays no favorites.

Using the Bible as a guide, as well as wise counsel, Hammond shows the reader how to maintain one's "diva" status through organizing, pinching pennies and learning the difference between needs and wants. She teaches from personal experience that no one cares more about your money than you do.

Divanomics shows readers how to hold their heads high with dignity and grace as they rebuild self- and financial worth with simple tools. McKinney defines a true diva as a woman "who knows that life is not about her, but rather the contribution she makes to others ... and the legacy she will leave." Written with such diva girls in mind, the book is a hopeful, encouraging read for women who were never taught how to spend and save responsibly.
