

360 Life

 Billy Joe Daugherty | WaterBrook Press

God has so much more for our lives than we can imagine. In *360° Life*, Billy Joe Daugherty, who died before his book was published, offers God's perspective on how faith can help believers live more richly, deeply and fully.

He offers examples of how ordinary people, facing difficult and seemingly impossible situations, can have life-changing events as a result of simple faith.

When we understand how God sees us, as His child, loved and deserving of the great plan He has for us, we can break free from fear, doubt, rejection and other obstacles.

Daugherty's wife, Sharon, who wrote the epilogue, says: "Billy Joe, a man who kept the faith and finished the race that God set before him, is now face-to-face with his Lord and has that total ... understanding of a life of faith. His legacy of loving Jesus and loving people will live on through this book as people see themselves as God sees them and experience a fulfilling life that really matters."
