

4 Reasons Why Donald Trump Is the Best Choice for Our Children

Donald J. Trump **announced** the national co-chairs of the newly created Pro-life Coalition in support of the Trump-Pence ticket. Last week, in a **letter** made public by Susan B. Anthony List, Mr. Trump announced the creation of the coalition and asked pro-life leaders for their support.

In the letter, Trump also outlined four pro-life policy commitments.

“National co-chairs of the coalition will communicate Mr. Trump’s pro-life commitments to people in their sphere of influence, speak out in support of the Trump-Pence ticket and, most importantly, recruit state co-chairs for the coalition who will in turn drive the campaign’s pro-life message out to each individual voter,” explained **Marjorie Dannenfelser, Chairman of the Pro-life Coalition**. “Every vote counts. The policies outlined by Mr. Trump are not only important to pro-life base voters, but they appeal to a majority of Americans who oppose Hillary Clinton’s plan to make taxpayers pay for even late-term abortion-on-demand.”

Donald J. Trump is committed to:

- Nominating pro-life justices to the U.S. Supreme Court.
- Signing into law the Pain-Capable Unborn Child Protection Act, which would end painful late-term abortions nationwide.
- Defunding Planned Parenthood as long as they continue to perform abortions and reallocating their funding to community health centers that provide comprehensive health care for women.
- Making the Hyde Amendment permanent law to protect

taxpayers from having to pay for abortions.

The Hyde Amendment is longstanding, bipartisan policy to protect the conscience rights of taxpayers by stopping taxpayer funding of elective abortions. Hillary Clinton has pledged to rescind the Hyde Amendment. For the first time, the Party Platform ratified by Democrats this summer explicitly calls for the repeal of this policy.

Pro-life Coalition: National Chairman:

Marjorie Dannenfelser, President of Susan B. Anthony List

National Co-Chairs:

Representative Robert Aderholt (AL-04)
