

A Sign of the Times? Author Says Stock Market Crash Was Planned

Author John Shorey tells Jim Bakker he believes the stock market crash on Monday was planned by “globalists” who want to start a one-world economy.

Bakker says it lines up with what Shorey’s been teaching all along.

“We’re going to see a domino effect,” author John Shorey says. “Some people say it will start in Germany, and then it will domino to America.”

While Rabbi Jonathan Cahn links a “great shaking” in the financial realm to the Shemitah, the secular world sees this as a chance to unite the the world economically.
