

# **AIMS Announces the Release of Harvest Connection in a DVD Equipping Series**

Is the Great Commission more your Great Predicament? Are you at a loss as to how to balance your congregation's local outreach with your desire to make a global impact? Then AIMS Harvest Connection DVD Equipping Series is for you!

For more than 20 years we have used Harvest Connection to equip tens of thousands of churches around the world to minister among unreached peoples. From these trainings our partners have planted more than 32,000 churches. This proven training system will teach you the Biblical Basis for missions, reveal the current state of the gospel in the world, inform you what a Great Commission Church is like, and will lay out for you the Eight Best Practices of a mobilized church.

Contact AIMS today and find out how you can take the first step to mobilize your church for strategic, cross-cultural ministry. Let Harvest Connection connect you to the Lord's vast harvest fields.
