

Amazing Mystery Revealed in Jonathan Cahn's 'The Oracle' Pinpoints Exact Dates of World Events

Throughout his many successful, bestselling books, author Jonathan Cahn has stunned readers worldwide by revealing ancient secrets, mysteries and more, based on biblical prophecy and documented in Scripture.

Now, he does it again with *The Oracle: The Jubilean Mysteries Unveiled*—Cahn's epic new hit and his highest-debuting book on both the *Publishers Weekly* and *New York Times* bestseller lists.

In *The Oracle*, Cahn reveals an amazing, uncanny and eerily precise mystery that pinpoints the timing of world events—right down to the day and time.

Is it possible an ancient mystery lies behind the events of modern times? And is it possible that such a mystery could foretell or determine the timing of those events down to the exact day they will take place?

Cahn caused a stir worldwide with the release of his massive bestseller, *The Harbinger*, in which he revealed the stunning ancient signs of warning that are reappearing on American soil, such as terrorist attacks, market collapses and more. In *The Harbinger*, Cahn also detailed nine specific warnings and omens of national destruction from ancient Israel. These same nine harbingers are manifesting in America with profound ramifications for America's future and end-times prophecy.

Likewise, one of the mysteries revealed in *The Oracle* concerns what many see as the harbinger of the end times—the

fulfillment of biblical prophecy through the rebirth of Israel. In a mystery that goes back to the end of the 19th century, Cahn reveals a prophecy given about that very event—the exact period of time by which the event must take place—50 years after the prophecy is given. Like clockwork, 50 years later Israel was voted into existence by the United Nations.

But the mystery goes deeper. Cahn also examines the very document by which Israel came into existence. On the document is dated the exact day on which the prophecy was given—50 years to the exact time, month, week and day.

Another central event of modern times and biblical prophecy was Israel's return to Jerusalem in the Six-Day War. In a chapter of *The Oracle* titled "The Masada Algorithm," Cahn reveals a mystery that goes back to the first century and the desert mountain fortress of Masada. It was there that the Jewish nation made its last stand against Rome, and there that the ancient nation met its end.

Cahn noted the exact day the nation of Israel returned to Masada and then added the days linked to Masada's fall in ancient times to see where it would lead—June 7, 1967—the exact day Israel entered the gates of its long-lost city, Jerusalem. Again, the mystery leads to the exact year, month, week and day when a significant world event took place.

Besides these stunning events, *The Oracle* promises to reveal the "mystery of the ages"—and even of Donald Trump, the White House and more. Cahn also opens up ancient mysteries that lie behind the current events and leaders of modern times. Throughout the book, the reader is taken on a journey of angels and prophetic revelations waiting to be discovered behind each of the seven doors—the ancient secrets that lie behind the world-changing events of modern times—and events that are yet to come. {eoa}
