

Angel Song

Sheila Walsh and Kathryn Cushman | Thomas Nelson

Annie Fletcher is proud of her sister Sarah and her upcoming graduation. But a night of celebrating new beginnings turns into tragedy as Sarah loses her life.

In the midst of loss, Annie finds herself hearing music and quickly realizes that no one else is hearing it. In her search to figure out what she is experiencing, she decides it is easily explained away by stress, but as time goes on, she's not so sure.

As her late sister's neighbors—and their Down syndrome son—take her under their wings, Annie is forced to come to terms with hurts of the past. As God places the right people at just the right times to direct her, Annie is forced to tear down the walls she has built around herself and in so doing, discovers a world she never before believed in and a promise for a new future.

Angel Song aims to speak to anyone who has ever wondered whether God could use angels to touch a life. Walsh and Cushman also affirm the value of people who have a disability yet seem to have a special gift to see things others miss.
