

Are Curses Blocking God's Blessings in Your Life?

Pastor Jim Kibler says God doesn't choose favorites—He doesn't bless certain people for no reason and not others. God works through various people who follow Him to heal people on earth. But that healing must also be received by faith.

“Curses are working in the lives of people,” Kibler says on the *Receiving From God* podcast on the Charisma Podcast Network. “And one thing it does is it blocks the blessing of God. ... Nothing just happens. There is always a reason for everything. There is a reason when somebody gets healed of cancer; there's a reason it happened. There's a reason when somebody dies of sickness or disease. ...

“Jesus, working hand in hand with God, spoke to sick people. That's what I do. Let me tell you something, folks: When I speak over a sick person, that is the end of it. That's the end of their sickness.”
