

Are You Tired of Settling for Less in Your Life?

In his motivational book, *Living in God's Best*, Andrew Wommack draws a line between miracles and blessings and has his readers choose a side. Is it better to live from crisis to crisis—praying that God sends a mystery check or last-minute healing—or from blessing to blessing, where health and prosperity are a way of life?

In addition to scriptural principles, Wommack's new book offers plenty of personal experience and practical advice. After years of relying on miracles just to keep afloat, he realized God had a better plan—the blessing of continual health and abundance! He tells of moving forward into a permanent place of prosperity by walking in God's physical, emotional and spiritual laws, and then lays the groundwork for readers to do the same.

For those ready to bridge the gap between their present situation and God's best, Wommack offers a no-nonsense-and-even-less-compromise approach that both informs and inspires. By taking personal responsibility and walking in what God has already done, anyone can experience *Living in God's Best*.
