

Become a Wisdom Seeker! Book of Proverbs: Part 2

I challenge you to make it your business to listen and read the book of Proverbs and watch how God changes your life. Your wisdom will supernaturally increase as you read! You will continually receive the mind of Christ.

There is humility in asking for God's wisdom. You must get to a place of surrender where you are seeking and desperate for God. And as it says in Proverbs 4:6-7 (NIV), "Do not forsake wisdom, and she will protect you; love her, and she will watch over you. The beginning of wisdom is this: Get wisdom. Though it cost all you have, get understanding."

God gives you EVERYTHING when He gives you His wisdom! Humbling yourself and making decisions by relying on the Holy Spirit, and not just yourself, will cause an avalanche of blessings in your life! There are so many benefits to wisdom.

Wisdom is a shield; it offers protection and will often save you in many situations. It will make you fearless, unstoppable and unshakable. You will find yourself to be steadfast and have victory and success. Wisdom gives you good health and a long life. It honors you, prospers you, elevates you and promotes you. It will make you to be generous and blessed and will give you favor and a good name.

It is time to use what God has blessed us with for His kingdom! You will need even more wisdom as you become a soul winner. God is individual and personalized. You did not get saved how I got saved and I did not get saved how you got saved. God reaches out to us in our dark places, specifically and individually. When you are ministering to people, you will need God's help to speak into their lives individually. God's wisdom is a special blueprint for this. Just ask! {eoa}
