

Biden Admin Pushed Medical Experts to Remove Age Limits from Transgender Surgeries on Kids

The debate over surgeries for gender-confused minors is one of the most heated arguments of our time. Now there's been a major revelation about how the Biden administration has pushed the transgender agenda when it comes to children.

According to the New York Times, Biden officials played a significant role in convincing an international pro-transgender medical group to remove age limits from its guidelines for trans surgeries.

"Email excerpts from members of the World Professional Association for Transgender Health (WPATH) recount how staff for Adm. Rachel Levine, assistant secretary for health at the Department of Health and Human Services and herself a transgender woman, urged them to drop the proposed limits from the group's guidelines and apparently succeeded," The Times reports.

The administration was reportedly concerned that age minimums would trigger political backlash that could fuel legislation opposing the trans ideology.

More than two dozen states now have laws restricting gender-

altering medical experiments on the bodies of minors. And this week, the Supreme Court agreed to hear the Biden administration's challenge to one of those laws.

Critics say children are too young to make these irreversible, life-altering decisions while supporters claim that young people with gender dysphoria need the procedures right away.
