

Blogger Inspires Thousands After Failed Suicide Attempts

Ruth Soukup blogs about everything from decluttering your home to how to save money.

But after a lot of thought and prayer earlier this year, the popular blogger shared about her personal battle with past sexual abuse and clinical depression.

“If there is just one person who can find hope in the midst of great struggle, then it will be worth it,” she wrote in her blog, “Living Well Spending Less.”

I spoke with Ruth a few months back during her appearance on *CBN/The 700 Club*.

Click the player to hear what she had to say about the pain and shame she endured and the freedom and purpose she has found in Christ.
