

Bobby Conner: Saints, Don't Stop Praying Now the Election Is Over!

Bobby Conner of Eagles View Ministries is urging Christians not to stop praying over the election and the nation in the days and weeks to come.

The internationally acclaimed speaker, sometimes referred to as "The Gentle Giant," offered a new prophetic word shortly after the Nov. 8 general election. In it, he said, "These could be the most dangerous days with the standing government."

He said that Christians, in their "joy and jubilation" over the election's outcome, cannot "go blind" to the underhanded dealings of Washington, D.C. He said we must be ready to stand up against "under-the-table, dangerous deals" made in the last days of our nation's current lame-duck government.

He further wrote:

Don't underestimate the damage a wounded rattlesnake can do. The cut-off head is still filled with deadly poison. Pray that God will bind every evil plot and plan to steal the victories.

Beloved! God has shown America great mercy. To those who much has been given much is required (see Luke 12:48).

- Now is the time to pray for our nation as never before. Ask God to release wisdom, equipping us not to squander these open doors of possibility and opportunity.
- Ask God to release His plans to reverse wicked evil political actions that have murdered untold

millions of babies.

- Ask God for His wisdom to appoint leaders who have a heart to obey the Word of God.
- Pray for a Holy Spirit revival to break out in our nation. May the holy fire of God sweep across our nation, setting us ablaze for the glory of God!
- Pray that good, godly advice is released to aid us in our prayers:1 Thessalonians 5:12-25.

Praise the Lord for a fresh wind blowing across our lands. God is awaking an awesome army that will be moved and motivated by Christ's love.

As prophesied in the 2015 Shepherd's Rod, "An awestruck world suddenly discovers Almighty God reigns!"

Lord, with thankful and grateful hearts we say, "Praise your holy name! What great things you have done!"
