

Breakthrough Documentary Reveals God's Healing Power in YOU!

PAID IN FULL is a documentary film like none other. You won't merely see what's happening around the world; you'll be trained and commissioned to do the same in Jesus' name! Watch miracles happen on film, hear testimonies from people whose stories have baffled doctors, and learn practical insights from ordinary Christians like you who regularly walk in healing ministry. **Learn from more than 30 healing ministers from around the world such as:**

- Daniel Kolenda (Christ for All Nations)
- Nathan Morris (Shake the Nations; Bay Revival)
- Chris Gore (Bethel Redding, Director of Healing Rooms)
- Paul Manwaring (Bethel Redding, Director of Global Legacy)
- Seth Dahl (Bethel Redding, Children's Pastor)
- Josh MacDonald and Reece Hale (IHOP Forerunner Evangelism)
- Pete Cabrera, Thomas Fischer, and Art Montgomery (Street Evangelists)
- Dr. Karl Bandlien, MD (Surgeon, President of Global Compassion Network)
- ...and many more!

You'll see creative miracles. You'll watch blind eyes open. You'll witness a tumor shrink, pain leave, a wheelchair left behind, and about 700 people testify to being miraculously healed at once. You'll even travel to the bush of Africa to see humble believers in mud churches ministering healing to each other in Jesus' name! But perhaps most importantly, **you'll be trained and equipped in the practical aspects of Christian healing ministry** so that you too can be activated in

this expression of Jesus' love and power. Our belief and expectation is that this film will make healing ministry normal throughout the Body of Christ today. Whether you're already actively involved in ministering God's healing power to the sick in Jesus' name, or whether you've never seen results before, this film is for you! **Here's the report from the April 13th premier of our movie at Northville Christian Assembly in Northville, Michigan:**

"WOW! Tonight's premier in Northville, Michigan, was spectacular! At the end, one person after the next came up and testified to having been healed. We had people running up stairs and down the aisles, vision restored (a man got a nail in his eye on a mission trip several years ago and has felt like he's been looking through a Coke bottle ever since, but tonight he could read a sign on the other side of the room!), several chronic conditions were healed, mobility was restored, and one man was waving his knee brace around in his hand while he testified about what God did! Jesus received all the credit and praise!"

Our expectation is that this film will inspire a generation of Christians to make healing ministry a normal function of the Church. Jesus paid for it with His own blood, and we believe He deserves everything for which He paid. **Order your copy TODAY at .**
