

Christians Beware: the Next 'Civil Rights' Fight is for Pedophiles

Read time: 3 minutes 55 seconds

God sent men and women to prophesy to His people throughout the Bible. Isaiah, Jeremiah, Miriam, Anna, Elijah and many others.

He sent them to warn His people to repent, and turn their hearts back to Him; to abandon their sinful ways and live in His righteousness with His blessing and protection.

When God's people failed to heed the words of the prophets, the Lord lifted His hand of protection from them and they suffered for it.

There have been many warnings within the United States for decades now about the transformation taking place. Satan is doing everything he can to silence the voices who are speaking against his plans, and in the present era that includes deplatforming.

A new organization in the LGBTQ community is actually standing up against and helping expose the harm being done to children by the radical left. The group, Gays Against Groomers, is against the mutilation and grooming of children to be used by predators. Recently, the group found they are being deplatformed across the board.

While Christians do not validate or agree with the lifestyle they live, there is common ground in the protection of children. But this censorship offers a moment of foreshadowing into the next group that is going to fight for recognition of their actions: Pedophiles.

By speaking out against the exploitation of children, Gays Against Groomers has found themselves banned from PayPal. Yet, they argue that groups like ProStasia, an advocate group for pedophiles, is allowed to conduct business on their platform. ProStasia also hosts an online forum called "MAP Support Club" which is a "chat-based peer-support network for teenagers and adults who self-identify as being attracted to younger minors." A 'MAP' is a minor-attracted person.

Gays Against Groomers called out this troublesome behavior on Twitter:

JUST IN: While we're not allowed to conduct business on PayPal, guess who is... an organization that offers a support group for "MAPs">@PayPal banned us for being against pedophilia, but allow actual pedophile groups to use their services unabated.#BoycottPayPal

– Gays Against Groomers (@againstgrmrs) September 22, 2022

The 'support club' website says, "It is intended as a community where MAPs can connect with one another, offer and receive support in difficult times, and overall, just enjoy a relaxed atmosphere where one can have fun and not be judged."

"The fact that an organization comprised solely of gay people, with trans contributors as well, is being banned from the largest payment processors in the country for opposing the sexualization and mutilation of children is shocking, to say the least," said Jaimee Michell, founder of Gays Against Groomers.

"On top of that, we discovered tonight that while we have been banned, an organization that literally runs a support group for pedophiles is able to use PayPal's services. It tells you all you need to know about the state of our society right now," Michell added.

This is a continuing trend of larger companies protecting the pedophilic agenda. Earlier this year, social media companies Reddit and Twitter banned the use of the word 'groomer' from being used. Why? It was offensive to those mainly in the transgender community who supported the mutilation and false conversion of children.

Compound this with the multitude of police sting operations that have arrested employees of Disney. Christian parents have been waking up to the fact that the Disney Corporation is not the fun-loving, cartoon-movie-making company they used to know. Disney frequently includes elements of the LGBTQ agenda into their films and television series.

The growing number of child-focused "drag shows" should be a clear indicator for Christians that the movement to legalize pedophilia is on its way. There are countless videos and photographs of children being in what is essentially a strip club. Twerking, removal of clothing and dancing on poles have become accepted by law enforcement under the guise of a "drag show." They will change the verbiage, but the actions reveal the goal: the sexualization of children. These events are taking place all over American society such as libraries, restaurants and in some cases churches.

The same arguments that have brought about the mutilation of children's bodies and puberty blockers causing irreparable damage will be used. The politicians and special interest groups will push for 'equality' of 'MAPS' and how they need to be legally recognized. They will try and remove parental rights from protecting their children like some already are doing when a child has been convinced they are transgender but the parent opposes it.

Will the Christians in America and around the world heed God's warnings about these actions? Will they stand up for God, their families and their children? Or, will they sit idly by as the devil takes, mutilates and leads their children down

the path to destruction? {eoa}
