

Church Music

 By David Crowder Band | [sixstepsrecords](#)

David Crowder Band, the Dove Award-winning six-piece, releases its fifth studio album, *Church Music*.

“The words ‘church music’ stir up images of good old Americana and even stodgy music, but if you have encountered our music, you know that there are a lot of cultural and current influences in it, so to put this music with that term does a number of things,” explains front-man David Crowder.

“It helps people understand what our intent is and it lets people understand that the idea of ‘church music’ is really broad and diverse—and to me, that’s really exciting.”

To add to the uniqueness of the self-produced album, the 17 songs play seamlessly from beginning to end, with one song blending into the next. Songs include the bright “Oh, Happiness,” the moving “How He Loves” and even a cover of Flyleaf’s “All Around Me.”
