

Ciara Responds to Boyfriend Russell Wilson's Jaw-Dropping Celibacy Announcement

There's "absolutely" no sex happening before marriage for pop sensation Ciara and boyfriend Seattle Seahawks star Russell Wilson.

"It's until the deal is sealed," she told a reporter.

The two have been in the spotlight recently after Wilson told pastor Miles McPherson God asked the two to wait until marriage. Both admit it's been a struggle to remain hands off.

"I think both of us look at each other and we're like—whew!" Ciara says. "But we take it one day at a time and keep it going with each other, and I'm really enjoying every day that we're sharing."

Though their choice has been criticized by some, McPherson has vocalized his support for abstinence.

"There are some in the media (who) claim waiting until marriage to have sex is 'stupid'. I bet you that this would not be a 'stupid' idea if he were dating their daughter. The thought is: The prettier the girl, the more unrealistic it is to wait. It's as though there is no other option," McPherson says. "... To all of you questioning why there is a hole in your heart after all of the sex you've had—it won't go away by having more sex."
