

Corner

 Nooma | Zondervan

Nooma is a DVD series by pastor, speaker and author Rob Bell that poses questions and invites viewers to join the discussion. These short films offer new, different, interesting perspectives to help people consider life outside the box.

The latest in the series is *Corner*, which asks if success can be dangerous. Can success turn on us when we work hard to get what we want but still feel empty and discover that our lives are only about us?

Bell offers a different life, one in which we see people's needs and do something about them, thus sharing our success with others.

Nooma DVDs are applicable for individual or group study, and leader guides for each study are available.
