

Costco Imagines a World Without 'America: Imagine a World Without Her'

Costco is pulling Dinesh D'Souza's *America: Imagine a World Without Her* from shelves nationwide, according to a WND report.

This surprising move comes the same week as the theatrical release of D'Souza's accompanying documentary of the same name.

An inventory control specialist at a Costco corporate office Washington reportedly caught wind of an internal order to remove all copies of the best-seller by July 15.

The retailer seemed to address the scenario via social media, thanks to citizen inquiries:

D'Souza, when asked, was unaware of any attempt of Costco to remove the book.

If the reports are true, "We're in the process of finding out what's happening. I look forward to getting to the bottom of this and continuing the strong relationship my publisher and I have always had with Costco and their millions of shoppers," D'Souza told WND.
