

Disturbing Prophetic Vision Details Tanks Rolling Through American Cities

America will not be destroyed from the outside, but from within, author and minister Pat Schatzline says the Lord told him.

The revelation came after Schatzline received a very vivid specific vision.

"I was standing on the street corner just worshipping the Lord when suddenly I saw tanks coming into the streets of America. And I thought, 'Lord, what is that?' ... I saw tanks going through the streets of America and people being rounded up."

Schatzline says the force of his vision caused him to weep.

"Here's what I believe with all my heart. We're now at a place where we celebrate perversion. We're now in a day where Islam is, people are excited about Islam and they, it's the blinders of this world ... We've taken babies and turned it into a voting bloc instead of it being a child."
