

Do Angels Really Intervene in Our Lives Today?

Most of us are familiar with the Bible verse from Psalm 91:11: “for He shall give His angels charge over you to guard you in all your ways.”

And most of us know the verse about entertaining angels unaware. But do we believe angels actually do intervene in our lives, even rescuing us from danger or death?

Years ago, I wrote an article “Woman’s World—Angels Among” about my small cousin being rescued from drowning in the ocean by a stranger who vanished afterward. My own son testifies of an incident during a rough period of his life of someone putting a loaded gun in his face, pulling the trigger and nothing happening. After the second try, the guy got scared and ran off. It was no coincidence that on that night, his dad and I were interceding over him; praying for God to put angels around him and protect him.

In fact, I believe praying the word of God activates angels. Psalm 103:20 indicates this to be true: “Bless the Lord, you His angels, who are mighty, who do His commands, and obey the voice of His word.” This tells us angels heed the voice of the Word. So, as believers, when we speak the Word of God, we give *voice* to the Word. Or, we become the *voice* of the Word.

Rebekah Blevins, a pastor’s daughter whose life was spinning out of control due to a drug addiction, believes she experienced angelic intervention—twice. Both events involve mysterious phone calls from a stranger to her parents who were praying for her. Both appear to be supernatural mediation that rescued her from death. One even involved physically freeing her when she was trapped and bleeding in her car after a horrible accident. She, like my son, was saved for purpose.

So be encouraged in knowing that praying and speaking the Word of God activates angelic activity in your life and the life of your loved ones. I don't believe we boss angels around or command them, but I do believe we can request their help and set them in motion through speaking the Word of God.
