

Dr. Paula Price Prophecies: 'A Teardrop Fell from Heaven'

Read time: 1 minute 57 seconds

Christians are living in a world filled with the works of Satan.

The devil's plan to get humanity to use witchcraft and the occult is coming to fruition across the globe, and it is prevalent in American society.

Apostle Dr. Paula Price addressed this wicked change of direction in America in an exclusive interview with Charisma News.

"I woke up yesterday morning, and when I did... the Holy Spirit showed me a huge tear drop fall from heaven," Price shared with Charisma News' John Matarazzo.

"And God says, 'I'm weeping for the earth.' So, He's letting us know now when heaven says He's weeping [things] are pretty bad. We have allowed occultism, mysticism and witchcraft and magic to totally dominate our landscape."

Dr. Price attributes this to the occult, which the Bible forbids as one of the many reasons Christians in America, and the world, are seeing an increase in persecution and secularism.

"But when you release that, when you unleash something like that [spiritually], you're going to have hostility, persecution will ramp up. And persecution legislation is going to drive it. So, unless we do a major move, and we appeal to God's mercy, that's going to happen. We are going to have to deal with the same devil that Jesus destroyed on the cross that we have given power to, because we have, so that's one of

the things we're going to have [to deal with]."

Dr. Price's words could not come at a more relevant time. As Congress recently passed the "Respect for Marriage Act," which is a desecration of the design for marriage that God created, many are worried about the threat to religious freedom that this now presents.

America has also seen an unprecedented number of domestic terrorist attacks against pro-life pregnancy centers, with zero help or assistance from the Department of Justice. In some cases, managers at the centers have reported hostility toward them from members of the federal government, such as FBI agents.

Dr. Price addresses this cultural shift and the affect it will have on future generations, as well as prophetic events happening now and what is to come in 2023 and beyond. To view her full interview with Charisma News, [click here!](#) [eoal]
