

Easy-to-Use Bible Curriculum From Hillsong

The worship music of Hillsong Church has impacted the world for the Kingdom and I'm sure many of their songs have been sung by your church. But did you know that Hillsong has also created weekly children's curriculum for churches?

It's named *BIG Curriculum* and that's exactly what you get, especially with the parts that matter to you the most. It's BIG on **Bible Engagement**, BIG with **Content Flexibility** and BIG with **Interactive Fun**.

Plus Big Curriculum is cost-effective with lessons for both preschool and elementary included in the same nine-lesson series. And you buy it as you need it with no long term commitments.

Each of the large-group/small-group formatted lessons has everything you need including reproducible digital files for the print materials and media clips providing a balanced mix of live teaching and quality-made engaging video clips & slides.

Scripture can be found throughout the curriculum and you will love having theme verses, Bible storytelling and additional reference verses. Plus Bible memory is covered with music and motions and other creative ideas to help kids put God's Word deep into their minds & heart.

Lessons with Big are not a spectator event. Kids love the interactivity in large-group teaching, object lessons, worship, video clips, games, quiz, ministry time and relational small groups.

Free sample lesson and more information can be found at [and](#) the newest Big series "Can You Believe It?" is on sale now
