

Encountering Heaven and the Afterlife

 James L. Garlow and Keith Wall | Bethany House

Encounters with angels, ghosts and the afterlife are a dime a dozen, but authors James L. Garlow and Keith Wall, whose previous book, *Heaven and the Afterlife*, became a best-seller, combine credible accounts with excellent storytelling in *Encountering Heaven and the Afterlife: True Stories From People Who Have Glimpsed the World Beyond*. Each encounter with a divine emissary gives readers insight into the afterlife.

Although the authors include scriptural background and history, the most compelling part of the book is hearing the voices of those who share their testimonies. One story mentions a child revived after falling to the bottom of a swimming pool, and he suffered no brain damage. Another tells of a man who explained how he died, which eased the pain of a family member who had blamed himself for his brother's death.

Readers who are open to accounts of near-death experiences or encounters with angels will appreciate this addition to the topic. Skeptics may even be won over by these believable accounts.
