

Let God's Divine Wealth Codes Move You Into Trusting Him for Your Destiny

Successful businessman and financial coach Rob Saunders has come to believe certain truths contained in Scripture that he calls the "Divine Wealth Codes." He loves sharing them with others and encouraging them to trust God for their future.

Saunders says on the *Escaping the Hamster Wheel* podcast on the Charisma podcast network that aerospace scientist Werner von Braun told President John F. Kennedy about the secrets of space. "Everything in space obeys the laws of physics," said von Braun. "And if you know these physical laws and obey them, space will treat you kindly."

The same thing is true, Saunders believes, with the Divine Wealth Codes. "God has a way of ordering the earth in the universe," he says. "Everything has an appointed time and purpose, and he has his eternal purpose on his side. God thinks in eternity. Man and woman ... think in short bursts of time."

Saunders adds another truth: "God's laws and His concepts are irrevocable. ... That's Romans 11:29." He says that with the Wealth Codes, 95% of a winning strategy involves what you believe. Only 5% comes from your behavior. "It's who you are. It's what you think God will do for you, and believing that and calling it into existence, much more than hard work" Saunders says.
