The Origin

Dressing up in costumes, handing out candy and carving jack-o-lanterns may seem like an innocent tradition, but Halloween's roots come from a dark, ancient, pagan festival. Now, ex-witch Jenny Weaver who is being used powerfully by God is warning Christians about the spiritual danger of participating in Halloween.

Originally called "Samhain," Oct. 31 marked the summer's end and fall's beginning. Many believed it was a day where the veil between the living and the dead was so thin people could cross through.

"It's all steeped in demonic rituals," Weaver says. People in Northern Europe would dress up in costumes to disguise themselves as one of the spirits rising from the dead to protect their families from what they thought was lurking between the veil.

During the pagan festival, food and animal sacrifices were offered up to the evil spirits that were believed to be coming from the other side. reports fortune-tellers would gather together in the dark, alongside the fires burning sacrifices to make predictions about the coming year.

A Message to Christians

Weaver, a wife, mother and worship leader who is best known for "Singing the Scriptures" live each week on her Facebook page opens up about her testimony with the hopes it will help

others from being led astray.
