

Exposing Demonic Nighttime Sexual Spirits

Demonic visitation in the night is not something we want to experience or admit, but in reality the forces of darkness are active while we sleep.

Demonic spirits torment us in the night hours. This secret visitation brings shame among God's people. However, exposing the powers of darkness is the key to removing torment and demonic visitation in the night hour.

Here are some practical steps to removing demonic visitation:

- Close the doors to sin.
- Repent of any sexual sin.
- Anoint your bedroom with anointing oil.
- Have Christian music playing in your bedroom.
- Speak peaceful Scriptures and Scriptures about sleep in your bedroom.
- Pray offensively instead of defensively. See my book, *Warfare Declarations*, for warfare decrees.
