

God's Prophetic Promise to Heal You—Mind, Body and Soul

Throughout the Bible, we see numerous references to God healing sickness, disease and infirmity. However, it is important to know that God's ability to heal was not just something which happened in the days of the Bible. God still heals today, and He wants you to be healed and whole in every area of your life. There isn't one area of your life where God doesn't want to see you healed. In fact, Isaiah prophesied concerning Jesus over 300 years before His birth that He would come to heal all our infirmities.
