The differing reactions to Swift and Trump at the Super Bowl highlight the complex interplay of politics, celebrity culture and public perception. While for years Swift has been highlighted as a fan favorite of women who listen to pop music, the exposure of her witchcraft, dark themes and her incredibly liberal stances on several issues have pushed many away from her platform. On the other hand, Trump's ability to tear down the platforms that have gotten our nation so off-course and his openness to the Christian faith have gained him good stead with the conservative movement.
