

Healing Unplugged

Bill Johnson & Randy Clark

(Chosen Books)

Veteran healing ministry leaders and best-selling authors Bill Johnson and Randy Clark team up again to write candidly about their ministry in *Healing Unplugged: Conversations and Insights From Two Veteran Healing Leaders*.

The book is written in transcription style as Johnson, senior pastor of Bethel Church in Redding, Calif., and Clark, founder of Global Awakening, interview each other, revealing glimpses of their lives, their friendship and their ministries. Opening their hearts, they share stories of their early years in ministry, and the persons and events that impacted them and helped to grow their ministries.

Readers will be challenged to believe in a God who is active today as the authors tell of miracles they have witnessed stateside and afar. Tempered with humility and lightened with humor, *Healing Unplugged* shares the mistakes and milestones the authors have experienced, and offers encouragement to others pursuing healing ministries.
