

Here's 'What Happened'—God Intervened in the Last Election, as My New Book Documents

I am excited to say that my new book *God and Donald Trump* releases six weeks from today on Nov. 7.

If you have not seen the two-minute trailer about the book, [click here](#). You can also download a sample chapter by [clicking here](#).

The media interviews already have begun. I had the privilege of being interviewed by Rick Wiles on TruNews last Friday. I thought you would enjoy listening to the interview, found [here](#). We talked about why I wrote the book: I felt there needed to be an answer to Hillary Clinton, whose new book is titled *What Happened*. Our interview has been downloaded from the TruNews website more than 17,300 times in only four days.

My book tells “what happened”: God intervened. He did so by raising an unlikely person, even someone most Christians would not have chosen. Yet there was a miraculous aspect to this election that can only be explained—for those of us who love Jesus and believe the Bible—as though it were somehow God’s will.

In the book, I try not to be dogmatic, but I do make the case and hope the reader will come to the same conclusion.

I hope you will want to read *God and Donald Trump*. If you ordered ahead on [Amazon](#), it actually will help us, because the best-seller lists count those pre-sales.

I thoroughly enjoyed my visit to TruNews in Vero Beach,

Florida. What the Lord has done through Rick Wiles is amazing, with impressive, paid-off facilities—and the upcoming things they have planned. I will be reporting more about TruNews in the future, especially when they launch TruNews TV.

I mentioned TruNews and Wiles in *God and Donald Trump* because they are the ones who discovered Mark Taylor, who prophesied in 2011 that Trump would become president.
