

Hillary Clinton's 'Mr. Fix-It' to Reveal All to Sean Hannity Tonight

When *The National Enquirer* is one of the few remaining honest sources of journalism in America, you can truly marvel at how far our nation has descended.

The Enquirer is reporting—and FOX News Channel sources have confirmed—that “Hillary Clinton’s Mr. Fix It” will “tell all” to Sean Hannity’s national cable audience Monday night. The appearance follows just days after his confessions to the tabloid news magazine hit national newsstands.

This “fixer” is expected to reveal not only his identity, but documentation that corroborates his accusations against the Clinton family. *The Enquirer* reported this man played a key role in some of their most disturbing schemes: the plot to take down President Bill Clinton’s mistress Monica Lewinsky, deals to buy the silence of Bill’s sexual assault victims, and setting up extramarital trysts for both Hillary and Bill Clinton.

Hannity appears on FOX News Channel at 10 p.m. EDT.
