

History Professor: This Election Could Lead to Civil War

A Civil War historian says the 2016 election closely mimics the one of 1860, which launched the brutal American Civil War.

"We all know what the price was when we went to a Civil War that killed 660,000 young men because we became so divided," Dr. William Forstchen tells Jim Bakker.

For American citizens who are still unsure how to vote come Nov. 8, Forstchen says there is a simple, historical answer. Watch the video to see what it is.
