

How Christians Can Overcome Sickness and Premature Death

There are Christians experiencing sickness and premature death. Paul talks about this in 1 Corinthians 11:30, where he says, "For this reason many are weak and unhealthy among you, and many die." He identifies the reason as "not properly discerning the body of Christ." This one statement holds a great truth within it. If the corporate church could understand and practice properly discerning the body of Christ, then not only would we each individually be insulated in the glory, but the church as a whole would be insulated and protected.

There are so many levels to properly discerning the Lord's body. Many Christians don't fully understand it. It's one of the reasons why there is so much sickness in the church. But it can be different! In this new teaching podcast series we are going to dive into this truth and see God's glory insulate our lives and be a part of building a hedge of glory around the corporate church.

In addition to my podcast I have also put together a longer four-part teaching series that covers these life-changing topics and more. His word sown in your heart will move you from positional truth to experiential truth. I invite you to go to my website and look in my store for the series called *Creating a Sickness Free Glory Zone*. It is available in both CD and MP3 Download format. I know it will empower you to go higher in God's healing glory!
