

How Faith Miraculously Healed This Woman of Cancer and More

I want to share this powerful healing testimony from cancer with you from a music minister, longtime friend and sister in Jesus.

She shares on her social media:

I have known this lady, Becky Dvorak for 40 years. She and I sang together at Church of the Jubilee. She watched my stepdaughter when I would go do mime shows.

Along with her 3 biological adult children, she has adopted five boys from Guatemala who are now adults. Some of them had serious health problems and she saw them healed.

She ministers all over the world and sees miracles.

When I was in Washington DC suburbs back in May of 2019, I went to her healing seminar, and today I am healed of cancer. There is no metabolic activity so no radiation treatment is required. No more drugs are needed. After six months of chemo hospitalization, prednisone, and not being able to work, I can honestly say that it has been a real life altering six months for me. But praise God! I am completely healed because of faith in God and keeping my words lined up with life as the Bible says.

Also, three years ago Becky prayed for my knee which had been diagnosed with arthritis as per the x-ray. I would have to have surgery but she prayed for me and my knee was healed.

We rejoice with you, Mary Ellen! {eoa}

Becky Dvorak is a prophetic healing evangelist and the author of DARE to Believe, Greater Than Magic and The Healing Creed.
