

How 'Glory Fire' of Azusa Street Revival Can Be Yours

God manifests His *shekinah* glory through fire, says supernatural minister Jenifer Eivaz. He did it for the children of Israel on their exodus journey, and He'll do it for you.

This fire is a supernatural fire that accompanies God's presence, Eivaz explains on the "Take 10 With Jenn" podcast on the Charisma Podcast Network. "When the manifest presence of God falls in the room as He ministers, it feels like fire. To be more specific, it feels like holy fire." And it has a direct connection to personal holiness, she adds. "Personal holiness and this kind of experience of glory are very much cause and effect, with a whole lot of process in between."

In Eivaz's own life, when she surrendered to the fire of holiness, "the Holy Spirit always met me with grace and with power ... and He would merge me and His glory fire. ...

"We read in the Bible how fire was a symbol for the presence of God, Numbers 9:15[NKJV]. ... 'Now on the day that the tabernacle was raised up, the cloud covered the tabernacle, the tent of the Testimony; from evening until morning it was above the tabernacle like the appearance of fire,'" Eivaz says. "We see in some other verses that the cloud was the glory of God, only with the quality of fire."

But this manifestation did not end when the Israelites entered the promised land, Eivaz says.. "There have been many testimonies throughout history of people seeing fire on or around the buildings where anointed services were being held.

"I listened to the testimony of Tommy Welchel on *Sid Roth's It's Supernatural!* show, and he is one of the last remaining persons to have physically attended the Azusa Street Revival.

And he described meetings where spiritual fire could be seen coming up from the floor, and fire coming down through the ceiling. And this is when the miracles would happen, he said.

“And another young man that I know ... shared with me his experience with glory fire. And he said he was privileged to see the Lord moving signs and wonders and glory manifestations in his church, even when he was very young. And he said that during revival meetings, the fire department was contacted after several people in the neighborhood saw the roof of the church on fire. And he explained that the church roof was not physically on fire, but it was a supernatural fire. And the Holy Spirit was allowing people in the neighborhood to see it.”
