

How God Miraculously Healed This Woman's Brain Tumor

Perhaps you or a loved one received a serious medical report, and in the natural, there is not much hope. But I am here to help you see that regardless of the medical report, there is always hope for healing in the name of Jesus. But we need to learn to believe in God's healing promise to receive our manifested healing. And this woman did just so and was miraculously healed from a brain tumor. Here is her glorious healing testimony to encourage you in the faith to believe.

In October 2018, Penny from North Carolina was diagnosed with tumors. She had a bad MRI, and doctors were even talking about performing surgery. However, Penny chose to believe God's word from 1 Peter 2:24 instead, and stand on it.

"He Himself bore our sins in His own body on the tree, that we, being dead to sins, should live unto righteousness. "By His wounds you were healed"(1 Pet. 2:24).

In March 2019, Penny attended a healing conference where Becky spoke forth a word of knowledge that there was something behind the ear. Twice it was said that the Lord is healing it.

Penny knew it was her tumors Becky was speaking of. Penny knew she was healed. Becky's word of knowledge was a confirmation of what Penny was already believing God for, and He brought forth the manifestation during the conference.

Now, Penny is completely off all medicines and she does not have to take any more MRIs for two years.

She is now committed to telling people about her healing and to confess that Jesus is a healer. {eoa}
