

How Godly Mentorship Influenced These Spirit-Led Leaders

Godly mentorship is an important metric at all levels of spiritual and leadership growth; it is biblical. Christian Harvest International Ministries has an online mentoring program with two tracks designed for an individual growing in their identity as a kingdom influencer all the way to the executive leader.

At CHI we approach mentorship with a clear and overt Christian-biblical perspective. Our two “Engage Mentorship” tracks are all about investing in building godly leaders who walk full of faith in their identity and to bring forth the work of God’s kingdom that Christ has already begun within them. Our desire is to apostolically share the prophetic vision and strategy that is being released from heaven into kingdom influencers who will allow it to multiply, bringing spiritual and social transformation to each home, community, church, city, state, territory and nation.

In this episode of *Victorious Prophetic Warfare* on the Charisma Podcast Network, join Greg and Becca as they dive in-depth into their experience as a God-fearing couple that has received mentorship throughout their many years of ministry and the importance that has played in their growth and advancement in the kingdom. {eo}
