

How Jonathan Cahn Was Spiritually Attacked the Day 'The Paradigm' Released

If you read the October issue of *Charisma*, you know the cover story is about *The Paradigm* by Jonathan Cahn. I was among the first to read the manuscript, and I believe it is as important as or more important than even *The Harbinger*. Rabbi Cahn sees patterns in the Old Testament that are played out in current events. It really is something for you to think about.

The book released a little more than a week ago, and already it is No. 5 on *The Wall Street Journal* nonfiction list and No. 7 on its e-book list. It is No. 5 on *The New York Times* hardcover nonfiction best-seller list. Also, it's No. 12 on the *USA Today* best-seller list and No. 10 on the Amazon Best Sellers list.

A couple of weeks ago, I wrote a newsletter about Hurricane Irma and our company's experience with it. I mentioned that, every time we release one of Rabbi Cahn's books, something traumatic happens the day of release. This time, I assumed that instead of Rabbi Cahn being hit, we bore the brunt of the attack. I was surprised when on Tuesday, Sept. 19—the day *The Paradigm* released—he was rushed to the hospital with a ruptured appendix. We are grateful he will be OK, but that was quite a traumatic thing to happen and is an indication of the level of spiritual warfare taking place.

To show my friendship and concern, I flew up to visit Rabbi Cahn in New Jersey last week and recorded a podcast, which you can listen to [here](#). We discussed not only the latest attack on his health, but also the importance of *The Paradigm* itself. I don't want to give away too much, but let's just say that he draws parallels to a number of current political leaders.

The Paradigm is available wherever books are sold, or you can order it online by clicking [here](#).
