

How Media, Powerful Politicians, Left-Wing Activists Try to Hinder Trump's Agenda

If you've been following my Strang Report podcast and newsletter lately, you know I've been sharing about my new book, *Trump Aftershock*, which comes out Nov. 6. The premise of my book is that if Donald Trump's election was an earthquake that was felt around the world, then his accomplishments since are the aftershocks no one saw coming.

Charisma House recently released a video trailer for *Trump Aftershock*, and I was excited to see how well it turned out. The video explains how powerful politicians, their media allies and left-wing activists are still doing all they can to hinder Trump's agenda and protect the deep state. But can anyone stop Trump from draining the swamp as he promised?

I think you'll enjoy my new book. In it, I use a Christian perspective to explore how Trump's election, his first-term accomplishments and the Make America Great Again movement have affected American culture. Not only has Trump addressed hostile world governments, but he's dealing with illegal immigration, strengthening the economy and military and all the while handling the left's relentless attacks.

Trump may be our most unlikely and unconventional president, but I believe God is using him to do things no other president has done. I also believe *Trump Aftershock* will offer you a unique perspective on the political, emotional and spiritual forces at work in America right now.
