

How the System of the Antichrist Stalks the World Today

As the Islamic State militants wield their literal sword of jihad to execute believers, they could be fulfilling an end times prophecy, author Joel Richardson tells Jim Bakker.

Indeed, as the recent ruthless murder of elderly priest Jacques Hamel serves as an example, Richardson says protestants must come to terms with the antichrist system.

“I think it’s time for protestants to get past all of this nonsense that the Roman Catholic Church is the system of the antichrist,” Richardson says. “Pope Francis is not about to start beheading protestants.”

But the Islamic State is.

“It’s not the freemasons or the new agers that are doing it,” Richardson says. “There is a religion that’s doing it.”
