

How to Accurately Interpret a Word of Knowledge

So much of what we understand about the operation of the word of knowledge can feel very mysterious. God has a way, and sometimes His way is different from ours, especially in how He chooses to communicate. Sometimes it can feel like a whole other language. We often stop pursuing His gifts and give up, because we feel like they have failed.

Often, it's simply because we don't understand His language. Just as with dreams, the language is symbolic, and often feels like an enigma.

In the same way, the word of knowledge can feel like an enigma, incredibly mysterious, something we just don't understand.

But this just means we have to learn how to interpret what it is that He is saying. How we go about this is the big learning curve. Part two of this three-part series on the word of knowledge will help with this exactly. Shawn has learned some tools along the way through walking in the word of knowledge both in the church and the marketplace, and it has been such a fun journey of wins and losses.

He learned a long time ago that the tension of mystery that occupies much of this "voice of God" space is less about "results," and all about the pursuit of Him in the "process." Get ready to go to new levels in your faith as you let the supernatural into your leadership.
