

HR 5 Will Make This Bride's Joy Turned to Shock a Common Tragedy

A beautiful young bride-to-be was thrilled to be picking out a wedding dress. She had saved herself for her husband for their special day, but unbeknownst to her, the wedding store was paying a biological male dressed as a woman to help ladies try on their dresses.

The majority of modern wedding dresses are designed to be worn without even a bra. ...

Because he was wearing a COVID mask and a dress, this man repeatedly undressed this bride-to-be, touching different parts of her body while helping her in and out of wedding dresses.

When she realized the person under the mask and dress was a man—she was horrified! She never wanted to be undressed before any man except her future husband.

When she complained, the wedding store owner said the store was required by law to treat the man as if he were a woman. My legal team is pursuing all available options against the store, but this story and many more will play out again and again if the misnamed Equality Act passes.

Even if you already responded, we need to keep the pressure on our senators. The battle in the Senate will be fierce, but we can win.

If the Equality Act passes the Senate, there will be very little we can do to stop the abuse—like this traumatized bride-to-be. Your daughter or granddaughter will be next. A crossdressing preschool teacher may help toddlers use the

bathroom—or worse, a pedophile will have legal rights.

This means any time the Senate is in session, a single senator can ask to include the Equality Act in the budget vote. This circumvents the 60-vote filibuster to allow a simple majority.

Thankfully, this can be blocked. If one senator objects to this maneuver, then a full vote with the filibuster rule is required. We are working with senators to make sure the floor is covered every minute to object if needed.

California just gave another example of how far this nonsense will go. California legislators introduced a bill to levy a \$1,000 fine against any retail chain that separates clothing, toys or any product for boys and girls into gender-specific sections. Imagine having to shop for a girl's dress!

This California insanity will sweep the country under the Equality Act.

The Equality Act will do more—much more—than affect your shopping.

I know it's hard to believe, but the "Q" in LGBTQ comprises about 550 sexually deviate paraphilias—including pedophilia.

The activist group LGBTQ Nation states: "A queer definition ... goes far beyond mere sexual orientation or gender identity."

The "Q in LGBTQ can also signify other sexual orientations and gender identities not covered by the acronym's preceding letters. If you're gender-neutral, non-binary, agender, genderfluid, pansexual, asexual, solosexual or something else not covered by LGBT, the 'Q' has got you covered!"

And if this bill passes, you will not escape its reach!

The Equality Act will also make abortion a federal right, and every state law will be preempted—including parental notification and consent, informed consent and doctor

regulations.

If we do not stand up right now, the Equality Act will bring persecution to churches and schools. It will silence truth and common sense!

While there is nothing that can reverse the abuse of this young bride-to-be, you can make sure what happened to her does not spread nationally. We can stop this abuse from spreading if this bill is blocked.

I cannot emphasize enough how important it is to stop the Equality Act.

From changing the minds of legislators on Capitol Hill to defending brides-to-be, my team can provide this hope and justice because of you and other faithful donors who give each month to allow us to fight—and win—these cultural and court battles all across our nation.

Two of our church cases are now pending at the Supreme Court—Elim Romanian Pentecostal Church in Illinois and Calvary Chapel of Bangor in Maine. Please pray for total victory.
