

If America Doesn't Turn Back to God, There Won't Be an America

I know politicians aren't supposed to talk like this, but I don't care. I am not a politician, and I never will be. And I am not running for Congress because I want a career in politics. We have enough career politicians right now, so we definitely don't need another one. So I am not going to carefully craft a message I think that the voters want to hear. Instead, I am just going to tell the truth, and I believe people all over America are going to stand with me. The truth is that, if America doesn't turn back to God, there isn't going to be an America.

Since Roe v. Wade was decided in 1973, close to 60 million American children have been murdered by the abortion industry.

The blood of 60 million children is crying out from the ground against us, and if we continue to slaughter children on an industrial scale, there will be absolutely no future for our nation.

So no, I don't plan to tone down my message. I have been urged to compromise on my message in order to attract more voters, and that is how it always starts. Politicians start making compromise after compromise, and after a while, they become spineless jellyfish that don't really stand for anything.

Just look at what has been happening in Congress. We gave the Republicans control of the White House, the Senate and the House of Representatives, and Planned Parenthood has still not been defunded. Earlier this year, the Democrats threatened to shut down the government, and the spineless Republicans gave them virtually everything that they wanted—including full funding for Planned Parenthood for the rest of the fiscal

year.

You cannot be pro-life and vote for funding for Planned Parenthood.

Do you know what is going on at Planned Parenthood clinics all over the nation? After an abortion is performed, organs are harvested from that dead child and sold off to the highest bidder. We now have undercover video after undercover video proving this, and yet nobody has been arrested.

Instead, the federal government continues to give Planned Parenthood approximately \$500 million a year.

I am on a personal mission to stop this. I am so deeply frustrated with politicians that use the pro-life label to get our votes but then turn around and keep on voting to fund Planned Parenthood year after year.

So I am pledging that I will never vote for any bill that includes even a single penny of funding for Planned Parenthood, and I am calling on all pro-life voters to refuse to vote for any candidate who will not make the same pledge.

In addition, if I am elected, I will use the full power of my office to go to war with Planned Parenthood. That means that I am going to do whatever I can to force Planned Parenthood out of business, and I will greatly rejoice when the last Planned Parenthood clinic in America finally shuts down for good.

This is what our pro-life politicians should be doing, and I hope to be part of a nationwide movement to force them to start standing up for the unborn.

If you believe in what we are trying to do, I would encourage you to prayerfully consider supporting our campaign. We are a 100 percent grassroots campaign, so that means that the only way we will be able to get our message out and the only way we will be able to win this campaign is if true conservatives

like you get behind us.

And the good news is that we have already created a tremendous amount of buzz all over the state of Idaho. This district has never had someone so bold and so conservative run for this seat, and the liberals are already beginning to freak out.

If you live in north Idaho, I would encourage you to attend a campaign event this Thursday at 7 p.m. in Bonners Ferry. It is going to be at the Providence Bible Presbyterian Church, which is really easy to find. If you have any questions about how to locate it, just let me know. I hope to meet as many of you as possible there.

I also want to remind everyone that my brand-new book has just been released. It is entitled *Living A Life That Really Matters*, and if you loved my previous books, then I think that you will really enjoy this one as well.

Throughout this campaign, I am going to do my best to keep all of you updated on what is happening. As I have explained previously, there is no incumbent in this race because the individual currently holding this seat is running for governor instead.

So the race is completely wide open, and if we can get my message to every voter in this district, I believe we will win by a very wide margin.

The Lord has put me into a position where I am forced to depend on my brothers and sisters, and there is no way this can happen without you. Right now, we are in need of brochures, signs and other basic things a campaign needs, and if you would like to help out, you can do so right here.

In 2016, Bernie Sanders and Hillary Clinton were able to raise millions upon millions of dollars from Americans who are deeply committed to promoting abortion. I believe there are even more Americans out there who are deeply committed to

defunding Planned Parenthood and ending abortion in America, and the only way that will happen is if we start sending deeply committed pro-life people to Washington.

If we do not stop the slaughter of our children, there won't be an America for our children and our grandchildren. Time is running out, and I hope that you will help me share this message. {eoa}
