

Is Planned Parenthood Trafficking Baby Parts?: Why Not Even Jezebel Carried Out This Horrific Trend

Queen Jezebel was the most wicked woman in the Bible. She was an ardent idol-worshipper and murderer. She intimidated people by fear and was associated with sexual immorality and sorcery. And, as part of her idol worship, she was likely involved in the sacrifice of babies.

But not even Jezebel sold baby parts for profit.

Author and national radio host Dr. Michael Brown writes in a new article that the alleged medical benefits of this ghastly practice and the so-called humanitarian purpose behind this horrific trade do not make it right.

“It is downright evil to market the hearts and heads and limbs and lungs of babies slaughtered in the womb,” Brown says. “It is wrong. It is wicked. It is woeful.”

Brown points to these recent headlines, which sound like they have been taken straight from a horror movie:

- “In Court Hearing, Planned Parenthood Employee Admits to Trafficking in Baby Body Parts”
- “StemExpress CEO admits selling beating baby hearts, intact baby heads in Daleiden hearing”

In his new and popular book, *Jezebel's War With America: The Plot to Destroy Our Country and What We Can Do to Turn the Tide*, Brown says the spirit of Queen Jezebel, an incredibly evil and demonically controlled woman from the Bible, is still operating in America today and is evident through a militant

pro-abortion agenda.

According to LifeSite, “The CEO of StemExpress essentially admitted in court ... that her biotech company supplies beating fetal hearts and intact fetal heads to medical researchers. She also admitted at the preliminary hearing of David Daleiden and Sandra Merritt of the Center for Medical Progress that the baby’s head could be procured attached to the baby’s body or ‘could be torn away.’”

“And this is done for profit?” Brown asks. “People are making money off the body parts of butchered babies?”

In *Jezebel’s War With America*, Brown cites texts from the ancient world that described the horrific practice of sacrificing babies to the idol Moloch. He then compares this to a late-term abortion, as described by Brenda Pratt Shafer, a registered nurse from Dayton, Ohio. She testified before the Senate Judiciary Committee in 1995 about what she witnessed when she assisted in a partial-birth abortion on a 26½-week (over 6 months) pre-born baby boy. Read more about her ghastly and disturbing testimony [here](#).

“But the latest reports of selling intact baby heads and even beating hearts take things one step further,” Brown writes. “As noted by Peter Breen of the Thomas More Society, which is representing Daleiden in the current hearings, ‘That is an especially gruesome admission, but it begs the question: how did they get these fully intact human children?’ Indeed, ‘If you have a fetus with an intact head and an intact body, and intact extremities, that is something that would indicate that child was born alive, and then had their organs cut out of them, or that that child was the victim of an illegal partial-birth abortion.’”

“Reading this leaves me almost speechless,” Brown continues. “And yet these babies need a voice, and you and I must be that voice. They cannot cry out for themselves. That means that all

of us must do something, whatever that 'something' may be. It could mean praying regularly for God's merciful intervention, donating to a pro-life organization, getting your friends to watch the film *Unplanned*, working with a pro-life ministry, writing to your elected officials, adopting an unwanted child into your home, volunteering your legal services or taking time to educate your children on the sanctity of life.

"But please, let all of us do something until this ghastly practice is ended and babies can feel safe in their mother's wombs."

Jezebel's War With America, released last month, focuses on the fact that the spirit of the biblical figure Jezebel is at work today, through a fascination with witchcraft and sorcery, radical feminism coupled with the extreme pro-abortion movement, and other spiritual and cultural forces in an attempt to destroy America. Brown's eye-opening book not only unveils a satanic plot, beginning with an all-out assault on the church, but it will equip every believer with tools to defeat the enemy in their own personal lives as well as in the nation.
