

Is This George Soros' Formula for Killing America?

That billionaire George Soros is evil almost goes without saying. He has bankrupted entire nations and manipulated the elections in countless others.

Now, the American Association of Evangelicals have released a powerful 15-minute video (see above) on the Soros-funded globalist "formula" to weaken the church and America in an effort to destroy them both. Kelly Monroe Kullberg, a spokesperson for the AAE, said most Americans know something is deeply wrong, and now we can overcome what we can understand.

The video is produced by The Awareness Project, and is meant to be a powerful wake-up call to the church and nation. It is narrated by Eric Metaxas, author of *Bonhoeffer*.

"God help us," he said. "Please watch this video. Our country hangs in the balance."

"Two Georges—but oh so different! George Soros is selfishly trying to destroy what George Washington sacrificially founded: America," Dr. Jim Garlow said of the video. "Thank God for these fearless producers exposing one of the most sinister, destructive forces to the Republic. Listen to this. Listen carefully. Your nation depends on it."
