

Jack Hibbs: Deception Surrounds This Major End Times Issue

In a recent podcast episode, Pastor Jack Hibbs highlights one of the most pressing issues of our time, calling for unwavering support for Israel and cautioned against the misinformation being spread by commentators lacking the proper expertise. Emphasizing the nation's unique role in biblical prophecy, Hibbs challenges the narratives critical of Israel and argues that such positions often stem from a lack of understanding.

Hibbs criticized many conservative commentators for stepping outside their areas of expertise to spread lies and conspiracies about Israel. "Just because you're famous or just because you have a microphone doesn't mean that you're qualified to speak about what's going on with Israel," he says, asserting that only those who have studied the topic deeply should weigh in on the matter.

He accused media outlets and influencers of manipulating public perception by sharing outdated or staged footage. "Be careful who you're listening to," Hibbs warns, "because God is going to, and He's about to refocus His attention on Israel." He claims that various media outlets use "old footage from things where there's an earthquake and there's been devastation" to mislead viewers about Israel's military actions. According to Hibbs, these tactics are intended to frame Israel negatively.

Hibbs further defended Israel's military, arguing that it is among the most ethical in the world. "There is not a nation on Earth that has a more moral military than Israel, hands down," he says, citing Israel's practice of dropping leaflets to warn civilians before military strikes. He shared his personal experiences of witnessing Israeli military briefings and operations, stating, "I've sat there with the Israeli Air Force as a spectator in briefings... I've seen it with my own eyes."

The pastor also highlighted the deep and mutually beneficial military and economic ties between the United States and Israel, arguing that cutting off support would harm American interests. "If we did what you're hearing from many... we should cut Israel off, stop supplying them—you have no idea what you're talking about," he says.

Hibbs urges his audience to recognize Israel's strategic importance to the United States. "If you believe it or not, if you like it or not, Israel is the first line of defense for the United States," he said, adding that the two countries share intelligence, technology and cultural ties.

He emphasizes the biblical perspective, arguing that supporting Israel aligns with God's will. "God says... those who bless Israel, He will bless," Hibbs quoted from the Bible, adding that failing to support Israel is "falling right into the trap that Satan has set for antisemitism."

Hibbs calls for his listeners to be critical of the media and to ground their understanding of global events, particularly concerning Israel, in biblical teachings. "Watch out for media stunts," he cautions. "Be smart, be wise, be careful—don't be

a sucker.”
