

Jonathan Cahn's Latest Book to Send Cataclysmic Shockwaves Across America

New York Times bestselling author Jonathan Cahn is known for uncovering ancient mysteries found in biblical texts, first with his critically acclaimed book *The Harbinger* and recently with his blockbuster feature film "The Harbingers of Things to Come." Now, Cahn has unearthed even more ancient mysteries and shed light on what is happening in the world today with his most explosive work yet—***The Return of the Gods***.

The new book will be available on Sept. 6, 2022.

In the book, Cahn reveals that the gods that have come into modern world, transforming America from a Christian nation to a pagan one, are the same evil gods that were part of the apostasy and falling away of ancient Israel. The Bible reveals that behind these gods were entities known in Hebrew as the *shedim* or spirits, and in the New Testament as the *daimonian*, the root of the English word "demon."

Cahn warns that these gods never die; it was the entrance of Christianity over two thousand years ago that overcame their reign of terror and sent them into exile. It was the message of the Gospel, of God's love and forgiveness, that caused the polytheism and pantheism of the Greco-Roman world to give way to the belief in one God, and the spell of the gods was broken.

Is it possible that the ancient gods of Mesopotamia and the Middle East lie behind everything from what appears on modern computer monitors, televisions and movie screens; to the lessons given in classrooms; to the breakdown of the family; to wokeism and cancel culture; to every force and factor that has transformed the parameters of gender; to that which is, at

this very moment, transforming America and much of the world? Is it possible that these gods are even affecting everyone's lives right now?

In *The Return of the Gods*, Cahn begins to identify these ancient gods and how America opened the door to their return. He outlines the timing of events that gave birth to the LGBTQ+ movement; how the use of the rainbow goes back to the tablets of ancient Babylon and how it contains a specific mystery that will surprise and shock readers; how the mysteries have even determined the rulings of the U.S. Supreme Court and the exact dates the rulings had to be handed down.

While Cahn is known for revealing the stunning mysteries, many from ancient times, that lie behind and are playing out in the events of modern times, *The Return of the Gods* takes this to an entirely new level and dimension. In the book, Cahn takes readers on a journey from an ancient parable to the ancient inscriptions in Sumer, Assyria and Babylonia that become the puzzle pieces behind what is taking place in the world to this day, specifically in America.

In the book, Cahn addresses the answers to questions such as:

Who are the ancient gods? What are they? And is it possible that these beings, whose origins are from ancient times, are the unseen catalysts of modern culture?

Is it possible that these gods lie behind the most pivotal events, forces and movements taking place in our nation and around the world at this very moment? Are the gods at this very moment transforming our culture, our children, our lives and America itself?

What is the Dark Trinity? Is it possible that what we in the modern world take as nothing more than ancient mythology could actually possess a reality beyond our fathoming?

The Return of the Gods promises to take readers on a

fascinating, unforgettable and mind-blowing journey that will leave them stunned and with the ability to see the world as they never have before.
