

Jonathan Cahn's New Mega-Bestseller 'The Oracle' Unlocks the 'Mystery of the Ages,' Including Trump's Path to the White House

In the third week of national book rankings, author Jonathan Cahn's epic and prophetic new book, *The Oracle: The Jubilean Mysteries Unveiled*, remains at the top of the bestseller lists.

The rave reviews keep rolling in for the mega-hit, *The Oracle*, which promises to reveal the "mystery of the ages"—and of Donald Trump, the White House and more. In fact, in *The Oracle*, Cahn unlocks the mystery that has determined modern American history and the events of our day—even the rise of a very unconventional president.

Could the rise of Donald Trump to world power be the outworking of a mystery 2,500 years old? And could this mystery determine not only the timing of his rise to the presidency but also his decisions and actions? These are just two of the questions addressed in Cahn's newest instant bestseller.

In *The Oracle*, Cahn opens up an ancient mystery that lies behind the events and people of modern times. A number of these mysteries unlock current events and modern world leaders—including President Trump. Cahn calls one of these "The 70-Year Mystery."

In ancient times, the Jewish people were taken captive from the land of Israel into Babylon. According to the word of the prophets, the captivity would last 70 years. This 70-year

period would end with the rise of a world leader named Cyrus. King Cyrus would eventually issue a declaration releasing the Jewish people from exile in Babylon to return to their homeland and their holy city, Jerusalem.

How is this history tied to today's events? At the end of the year 2017, Trump issued the Jerusalem Declaration, recognizing Jerusalem as belonging to and comprising the capital of the Jewish state, Israel.

"In all of human history only two world leaders issued a declaration concerning the recognition of Jerusalem: King Cyrus and President Trump," Cahn says. "But there is more. The prophecy foretells that the king's declaration would come at the end of 70 years."

So did Trump's Jerusalem Declaration come at the end of any 70-year period significant in Jewish history? Seventy years before Trump's 2017 declaration was 1947—the very year that Israel was voted back into existence.

The similarities do not end there.

Cyrus issued his declaration not only at the end of a 70-year period but also in his first year of world power. Trump came to power in January 2017. He issued the Jerusalem Declaration in December 2017, just before the end of his first year in power, as did the ancient king.

"The ramifications of this mystery are staggering," says Cahn. "It means that if we had known the mystery back on the day when Israel was voted into existence, we could have foretold that 70 years later a man would rise to world power and would issue a declaration concerning Israel and specifically Jerusalem—and would do so in his first year of world power."

In this new, highly anticipated book, Cahn opens up the Jubilean mysteries and a revelation so big that it lies behind everything from the rise and fall of nations and empires—even

America—to the current events of our day, to future events, to the key of end-times prophecy and much more.
